TECHNICAL BULLETIN

PH CLEANER

PH CLEANER is a concentrated acid and cleaner which designed to penetrate below the surface to remove light cement haze, mineral deposits, rust stains, hard water stains, lime deposits and soap scum; and efflorescence

USES:

Recommended for use on granite, porcelain and acid resistant tile and stone

COVERAGE:

Depending on dilution, approximately 2,000 to 5,000 ft² (185 m² to 465 m²) per gallon (3.785 Lit)

METHOD OF APPLICATION:

1. **Read entire label before using**
2. **TEST A SMALL AREA** with a 24-hour cure time to determine the ease of application and desired results
3. Pre-wet surface with water
4. Mix 1 part of Master PH Cleaner to 5 parts of water
5. Depending on nature of cleaning task, stronger solution may be used
6. Apply solution and allow dwelling for 1 to 2 minutes
7. Agitate with natural-bristle brush or nylon scrub pad. Do not allow solution to dry on surface
8. Mop up dirty solution, rinse thoroughly with clean water, agitating with white nylon scrub pad or brush to ensure removal of cleaning agents and acid

LIMITATIONS:

- Do not mix with ammoniated cleaners such as bleach, as harmful fumes will result
- Acids of all kinds will etch, lighten, or change the color or cementitious material and limestone or acid sensitive tiles
- Do not allow solution to come in contact with any non-recommended surface

HANDLING AND STORAGE:

- Keep container closed
- Store in original container only
- Store between 10°C - 40°C (50°F - 104°F)
- Avoid contact with incompatibility materials

CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- Eye and skin irritant
- Contains phosphoric acid (CAS #7664-38-2)
- Protect hands with rubber gloves, eyes with chemical goggles and skin with protective clothing
- **IF INGESTED:** Induce vomiting. Drink large quantity of water. Seek medical attention immediately
- **IF INHALED:** Move to fresh air. If symptoms persists, seek medical attention
- **EYE CONTACT:** Flush with plenty of water. Seek medical attention immediately
- **SKIN CONTACT:** Wash with soap and water. If irritation persist, seek medical attention
