## TECHNICAL BULLETIN

# TRI-MIX

**TRI-MIX** is an effective stripper and solvent based stains removal, formulated to remove most sealers, epoxy grout haze, urethane coatings, synthetic finishes, adhesives and paints. TRI-MIX also act as an additive for POULTICE to remove deep set stains on dense stone and porcelain tiles

### USES:

Use on all natural stone (such as granite, limestone, marble, slate, and travertine) and tiles

### COVERAGE:

Approximately 75 to 200 ft<sup>2</sup> (7 m<sup>2</sup> to 20 m<sup>2</sup>) per gallon (3.785 liters) depending on thickness of coating or amount of residue to be removed

### METHOD OF APPLICATION: SHAKE WELL

1. **Read entire label before using**
2. **TEST A SMALL AREA** according to application instructions to determine desired results
3. Sweep or vacuum surface
4. Apply a liberal amount of TRI-MIX to a small manageable area of up to 25 ft<sup>2</sup> (2 m<sup>2</sup>), spread with a white pad and allow standing up to 2 minutes without drying or until coating or residue softens. Do not allow chemical to dry on surface
5. Agitate with a white pad. A scrubbing machine may be use
6. Wipe up residue with clean, absorbent white cotton towels or sponge. A wet-dry vacuum may be used
7. Rinse thoroughly with water
8. Wipe surface dry with clean, absorbent, white cotton towels
9. For removal of epoxy grout haze, dampen surface with TRI-MIX, then lightly agitate surface until haze is removed
10. Rinse thoroughly with water
11. Removal of thick coatings or residue may need several applications
12. Ready for surface traffic in 1 hour or after fumes have dissipated

### LIMITATIONS:

- Do not spray
- Do not allow TRI-MIX to come in contact with any surrounding surfaces

### HANDLING AND STORAGE:

- Close container tightly after each use
- Store in original container only
- Store and use in temperatures between 40°F and 90°F (4°C and 32°C)
- Safety goggles, protective clothing and solvent resistant gloves are recommended

### CAUTIONS:

- **KEEP OUT OF REACH OF CHILDREN**
- Prevent eye and skin contact
- **IF INGESTED:** Do not induce vomiting. Drink several glasses of water or milk. Seek immediate medical attention
- **IF INHALED:** Move to fresh air
- **EYE CONTACT:** Flush thoroughly with plenty of water for a least 15 minutes. Seek immediate medical attention
- **SKIN CONTACT:** Wash skin with soap and water. Remove contaminated clothing
