TECHNICAL BULLETIN

PESTERMINT

PESTERMINT is formulated using the most advanced silver nano technology forming a powerful anti-bacterial cleaner and odor eliminator

The product is specially designed to provide rapid destruction of bacteria. It has broad spectrum action against both gram positive and gram negative bacterium preventing the growth of bacteria

PesterMint is versatile enough to be used virtually in most area. Ideally for use in healthcare, institutions, commercial buildings and residential areas bathrooms, showers, locker rooms, schools and hotel rooms

METHOD OF APPLICATION:

1. Read entire label before using
2. Dilute at 1 part of PesterMint to 5-10 parts of water
3. If surfaces are visibly dirty, pre-clean prior to disinfection/fungicidal activity
4. Apply by spray on hard, non-porous surfaces to thoroughly wet surfaces for a minimum contact time of 10 minutes
5. Wipe dry with a clean cloth or sponge or allow to air dry

Rinsing is not necessary on floor surfaces that are to be waxed or polished. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with portable water before re-use

6. For sprayer applications, spray 6-8 inches from surface, rub with brush, sponge or cloth. Avoid breathing spray

Air Conditional Application:

For use as disinfectant and deodorizer in air handling unit such as aircon filter and fan coil unit. Thoroughly clean the aircon filters and fan coil unit with water. Spray the filters with diluted solution of PesterMint

Mildew Prevention Instructions:

- Will effectively inhibit the growth of mold and mildew caused the odors by them
 - Apply with a spray, making sure to wet all surfaces completely
 - Allow surfaces to remain wet for 10 minutes. Let air dry
- Repeat application weekly or when growth re-appears

- This product is effective against the pathogenic fungi, Trichophyton Mentagrophytes when used as directed for disinfection with a contact time of 10 minutes on hard non-porous surfaces in bathrooms including shower stalls, floors, locker room benches, bath mats and glazed bathroom tiles

LIMITATIONS:

- Do not allow product to come in contact with any non-recommended surface
- Use to finish within 3 - 5 hours time after dilution

HANDLING AND STORAGE:

- Closed container after each use
- Store in original container only
- Unused, stored product is freeze-thaw stable

CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- Do not take internally
- **EYE CONTACT:** Flush with running water
- **SKIN CONTACT:** Flush with running water
