TECHNICAL BULLETIN

WOODGARD

WOODGARD is a specially blend water-based timber finish in replacement of solvent-based lacquer. It is unique polymer which will bond even on solvent lacquer. Easy application and no pungent fume even in enclosed area

USES:

Equally effective on epoxy flooring, laminate, wood and vinyl composition

COVERAGE:

Approximately 500 to 700 ft² (46 m² to 65 m²) per coat per litre depending on the smoothness of timber surface and method of application

EXPECTED WEAR:

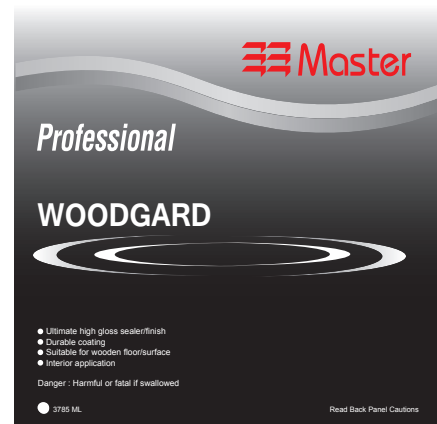

Will vary depending on hardness and texture of surface, type of area, surface wear, frequency and type of maintenance products used. Sand and grit will scratch and dull the finish. Harsh cleaning methods and high-alkaline or solvent-based cleaners will affect wear

METHOD OF APPLICATION:

1. Prepare floor by ensuring the floor is dry and free from any residue
2. Use a micro fiber or sponge mop as an applicator. Do not use roller as it will create bubble finish
3. Pour chemical out to a flat container
4. Dip applicator and apply with up and down motion till the floor is evenly covered. Thin coat is sufficient
5. Buff with a red buffing pad after every 2 to 3 coats to have a fine and smooth finish. Repeat the application process until desired result is achieved
6. When apply Woodgard, make sure not to leave any portion uncovered. It will create patchy finish because of uneven coatings

MAINTENANCE:

Master Wood Re-Buff is recommended for routine cleaning to spray buff using 155 to 175 rpm scrubbing machine

Periodic Maintenance:

- Standard surface should receive between 3 to 5 coats
- Slip resistance surface should receive 1 to 3 coats
- Apply finishes in thin layers only
- Do not ever let the finish wear completely through in any area

LIMITATIONS:

- Keep surfaces clean and dry to reduce possibility of slip-fall accidents
- Not recommended for use around pools, showers or areas subject to standing water

HANDLING AND STORAGE:

- Avoid contact with skin and eyes
- Close container tightly after each use
- Store in original container only

CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- **IF INGESTED:** Do not induce vomiting. Seek immediate medical attention
- **EYE AND SKIN CONTACT:** Flush immediately with plenty of water. If irritation persists, seek medical attention
