M POWDER

M POWDER, alkaline based fine abrasive is designed for removal of deep-set stains in dense surface tiles. This special blend alkaline abrasive powder able to remove scratches, moderate acid etching and wear patterns

USES:

Recommended for use on limestone, travertine, marble, terrazzo and dense surface tiles

COVERAGE:

Approximately 200 to 450 ft² (18.5 to 42 m²) per 1 kg depending on the hardness of the stone and method of application

EQUIPMENT:

- 175 to 350 RPM floor machine or hand polish machine
- White or Red synthetic fiber floor pads
- M Powder
- Spray bottle of water
- Wet vacuum, mop and bucket

METHOD OF APPLICATION:

1. **Read entire label before using**
2. **TEST A SMALL INCONSPICUOUS AREA** according to application instructions to determine desired results
3. Sweep or vacuum surface
4. Protect baseboards, carpet, etc. with protective plastic and/or masking's tape
5. Surface must be stripped of all topical coatings and well rinsed prior to refinishing. Use Master Release for this purpose
6. Liberally apply M Powder to the stone/tiles surface
7. Add water to form a milk-like consistency
8. Refinish using a weighted floor machine fitted with synthetic fiber floor pads or use a hand polishing machine
9. Keep compound wet while buffing. Add M Powder as needed. Harder stones will require thicker slurry solution
10. Buff area until the desired level of hone has been achieved. Squeegee slurry from a small area to check for desired results prior to removing slurry

11. Rinse well and use a wet vacuum to remove all excess compounds
12. Clean equipment with water after use

LIMITATIONS:

Do not allow M Powder to come in contact with any non-recommended surface

HANDLING AND STORAGE:

- Keep container closed
- Store in original container only
- Store between 4.5°C – 52°C (40°F – 125°F).

CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- Avoid breathing dusts
- Eye protection and rubber gloves should be worn during application
- **IF INGESTED:** May throw out. Drink sips of water or milk. Seek medical attention
- **IF INHALED:** Take some slow deep breaths of fresh air and sip some water
- **EYE CONTACT:** Flush with plenty of warm water for 15 minutes. If symptoms persist, seek medical attention
- **SKIN CONTACT:** Pour plenty of warm water onto skin for 15 minutes. Remove contaminated clothings
