## TECHNICAL BULLETIN

# CSS PLASMA

**CSS PLASMA** is a nano state of the art technology; exactitude mineral formulation reducing the surface oxide crystal, treating and hardening all types of calcareous composition floor surfaces into a highly durable glossy and natural finishes. Removes light scuff marks and scratches; maximize floor luster, excellent shine and durability without losing the slip resistance characteristics

### USES:

Excellent on marble, limestone, terrazzo, porcelain, tiles and natural stones

### COVERAGE:

Approximately 1,000 ft<sup>2</sup> (92 m<sup>2</sup>) per 1 kg

### METHOD OF APPLICATION:

1. **Read entire label before using**
2. **TEST A SMALL AREA** according to application instructions to determine desired results
3. Ensure surface is clean and dry
4. Apply CSS Plasma onto a manageable area of approximately 5 to 10 ft<sup>2</sup> (0.4 m<sup>2</sup> to 0.9 m<sup>2</sup>)
5. Using a synthetic fiber white pad, work the area in a side-to-side motion with a 175 to 300 RPM floor machine
6. Add Master CSS HD for consistency of the CSS Plasma and be sure to overlap the sections to achieve an even polish
7. Re-apply or continue until the required enhance polish result has been achieved
8. Apply CSS HD as require for higher gloss result as needed depending on surface traffic and consistency of routine maintenance program

### HANDLING AND STORAGE:

- Harmful if swallowed
- Avoid contact with eyes
- Close container after each use
- Store in original container only
- Store in dry area

### CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- **IF INGESTED:** Do not induce vomiting. Drink 1 to 2 glasses of water. Seek medical attention
- **IF INHALED:** Move to fresh air
