TECHNICAL BULLETIN

MASTER POWDER

MASTER POWDER is fine absorptive clay designed for the removal of deep-set stains in dense surface tiles, this special blend of non-acidic abrasive honing powder able to remove dirt, scratches, moderate acid etching and wear patterns, highly soiled and greased surface and produces an even, flat, honed finish

USES:

Recommended for use on limestone, travertine, marble, terrazzo and dense surface tiles

COVERAGE:

Approximately 200 to 450 ft² (18.5 m² to 42 m²) per 1 kg depending on the hardness of the stone and method of application

EQUIPMENTS:

- 175 to 350 RPM floor machine or hand polish machine
- White or Red synthetic fiber floor pads
- Master Powder
- Spray bottle of water
- Wet vacuum, mop and bucket

METHOD OF APPLICATION:

1. **Read entire label before using**
2. **TEST A SMALL INCONSPICUOUS AREA** according to application instructions to determine desired results
3. Sweep or vacuum surface
4. Protect baseboards, carpet, etc. with protective plastic and/or masking's tape
5. Surface must be stripped of all topical coatings and well rinsed prior to refinishing. Use Master Release for this purpose
6. Liberally apply Master Powder to the stone/tiles surface
7. Add water to form a milk-like consistency
8. Refinish using a weighted floor machine fitted with synthetic fiber floor pads or use a hand polishing machine
9. Keep compound wet while buffing. Add Master Powder as needed. Harder stones will require a thicker slurry solution
10. Buff area until the desired level of hone has been achieved. Squeegee slurry from a small area to check for desired results prior to removing slurry

11. Rinse well and use a wet vacuum to remove all excess compounds

12. Clean equipment with water after use

LIMITATIONS:

Do not allow Master Powder to come in contact with any non-recommended surface

HANDLING AND STORAGE:

- Close container tightly after each use
- Store in original container only
- Store and use in temperatures between 40°F and 90°F (4°C and 32°C)
- Unused, stored product is freeze-thaw stable

CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- Avoid breathing dusts
- Eye protection and rubber gloves should be worn during application
- **IF INGESTED:** Do not induce vomiting. Drink 1 to 2 glasses of water. Seek medical attention
- **IF INHALED:** Move to fresh air
- **EYE CONTACT:** Immediately flush with plenty of water for at least 15 minutes. Seek medical attention
- **SKIN CONTACT:** Wash with soap and water. If irritation persists, seek medical attention
