TECHNICAL BULLETIN

STONE CLEANER

STONE CLEANER (pH 7.0) is a formulated concentrated cleaner maintaining a neutral pH balance which is highly suitable for cleaning marbles, granites and all others natural stone without damaging the crystalline structure in the stone. From extensive research and experiences into stains analysis and stone care, this formulation ensures that the cleaning effectiveness is maintained while bringing out the best from the stone. Remove and inhibit efflorescence formation

USES:

Recommended for use on marble, limestone, granite, agglomerate stone and tiles, concrete, porcelain and ceramic tiles, and other masonry surfaces

COVERAGE:

When diluted, 1 gallon (3.785 Lit), yields up to 128 gallons (484 Lit) of cleaning solution which will clean approximately 10,000 to 20,000 ft² (929 m² to 1,858 m²)

METHOD OF APPLICATION:

1. **Read entire label before using**
2. Dust mop, vacuum or sweep area to remove any loose dirt or soil
3. Mix 1 to 3 ounces (30 to 90 ml) of cleaner per gallon (3.785 Lit) of water
4. Apply solution onto a manageable surface area up to 200 ft² (18 m²) with a mop or scrubbing machine
5. After solution has been allowed to dwell 1 to 5 minutes, agitate with a mop or scrubbing machine utilising a white scrubbing pad
6. Vacuum or mop up dirty solution, change rinsing water as needed

HANDLING AND STORAGE:

- Close container after each use
- Store in original container only
- Store between 40°F - 90°F (4°C - 32°C)

CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- Do not take internally
- **IF INGESTED:** Drink large quantity of water or milk. Seek immediate medical attention
- **IF INHALED:** Move to fresh air
- **EYE CONTACT:** Flush with large quantity of water
- **SKIN CONTACT:** Wash with soap and water
