## TECHNICAL BULLETIN

# RE-NEW

**RE-NEW** is an effective formulation to improve surface hardness provides long term durability, less porous surface and stain resistance with natural glossy shine.

Excellence product for restorative works and on-going surface shine maintenance on cementitious surface, marble, limestone, terrazzo and natural stone

### COVERAGE:

Approximately 300 - 500 ft<sup>2</sup> (27 m<sup>2</sup> - 46 m<sup>2</sup>) per 946 ml

### METHOD OF APPLICATION: SHAKE WELL

1. **Read entire label before using**
2. **TEST A SMALL AREA**, according to application instructions to determine desired results
3. Ensure surface is clean, dry and free of existing coatings
4. Apply Re-New onto a manageable area of approximately 5 to 10 ft<sup>2</sup> (0.5 m<sup>2</sup> to 1 m<sup>2</sup>)
5. Buff area immediately for 1 to 2 minutes or until surface is dry with a white pad, beige pad using 175 to 300 RPM machine
6. For best result, machine should weigh 50 to 60 kgs
7. If a higher shine is desired, repeat the process till desired shine is achieved
8. When final procedure is complete, sweep or dust mop to ensure removal of any remnants
9. Re-apply as needed depending on volume of surface traffic and consistency of routine maintenance program

### MAINTENANCE:

On commercial entrance or high-traffic floors, daily buff is recommended as a routine protector

### LIMITATIONS:

- Severely damaged polished stone or stone installed with lippage may require Master Restoration System - professional re-grinding, honing and polishing
- Do not allow product to come in contact with any non-recommended surface

### HANDLING AND STORAGE:

- Close container after each use
- Store in original container only
- Store between 40°F - 90°F (4°C - 32°C)
- Do not swallow and breathe gas/fumes/vapor/spray

### CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- Eye protection and rubber gloves should be worn during application
- **IF INGESTED:** Drink 1 to 2 glasses of water. Do not induce vomiting unless directed by medical personnel
- **IF INHALED:** Move to fresh air
- **EYE CONTACT:** Flush immediately with large amount of water for at least 15 minutes. Remove contact lenses if worn and seek immediate medical attention
- **SKIN CONTACT:** Flush immediately with large amount of water. Remove contaminated clothing
